

Air Force Sexual Assault Court-Martial Summaries

2010 – March 2015

The Air Force is committed to preventing, deterring, and prosecuting sexual assault in its ranks. This report contains a synopsis of sexual assault cases taken to trial by court-martial. The information contained herein is a matter of public record.

This is the final report of this nature the Air Force will produce. All results of general and special courts-martial for trials occurring after 1 April 2015 will be available on the [Air Force's Court-Martial Docket Website \(www.afjag.af.mil/docket/index.asp\)](http://www.afjag.af.mil/docket/index.asp).

SIGNIFICANT AIR FORCE SEXUAL ASSAULT CASE SUMMARIES 2010 – March 2015

*Note: This report lists cases involving a conviction for a sexual assault offense committed against an adult and also includes cases where a sexual assault offense against an adult was charged and the member was either acquitted of a sexual assault offense or the sexual assault offense was dismissed, **but** the member was convicted of another offense involving a victim. The Air Force publishes these cases for deterrence purposes. Sex offender registration requirements are governed by Department of Defense policy in compliance with federal and state sex offender registration requirements. Not all convictions included in this report require sex offender registration. Beginning with July 2014 cases, this report also indicates when a victim was represented by a Special Victims' Counsel.*

Under the Uniform Code of Military Justice, sexual assaults against those 16 years of age and older are charged as crimes against adults. The appropriate disposition of sexual assault allegations and investigations may not always include referral to trial by court-martial. Less serious cases may be more appropriately handled through adverse administrative actions. Each military justice case must be resolved on its own facts. There are no expected or required dispositions, outcomes, or sentences in any military justice case, other than those resulting from the individual facts and merits of a case and the application of due process of law. Adjudged sentences reported here do not reflect any relief on the sentence that may have been granted during clemency, pursuant to a pretrial agreement in exchange for a guilty plea, or on appeal.

The Air Force reports conviction rates for sexual assault offenses on a yearly basis. For Fiscal Year 2014, the conviction rate was 43% for sexual assault offenses. This rate is calculated based on cases that are included in the Department of Defense Annual Report on Sexual Assault in the Military.
